

The Journal of Visualized Medicine (JoVM) is a peer-reviewed journal that focuses on the visualization of medical data and concepts. It provides a platform for researchers and clinicians to share their findings and experiences in the field of medical visualization. The journal covers a wide range of topics, including medical imaging, data analysis, and user interface design. It is published quarterly and is available online for free access. The journal is edited by a team of experts in the field of medical visualization and is supported by the School of Medicine, University of South Alabama. The journal is indexed in several databases, including PubMed, Scopus, and Web of Science. The journal is a valuable resource for researchers and clinicians in the field of medical visualization.
